

Micro Technologies to offer Mobile Security to 2 million MTNL Subscribers

Micro Technologies to offer Micro LMTS (Lost Mobile Tracking System) to secure the mobile handsets of 2 million MTNL Subscribers. The launch took place in a ceremonial function and was inaugurated by the Executive Director, MTNL Mr. J. Gopal on 15th of April, 08

Symbian status achieved **Micro LMTS (Lost Mobile Tracking System)** is an innovative product of Micro Technologies. As an outcome of this tie-up, it will be very easy as well as cost effective for MTNL subscribers to secure their mobile handsets using this advanced technology. The application works on GSM Technology. This hidden software in the user's mobile informs the user about the new Mobile number (that has been replaced by the original Mobile Number), IMEI Number with the current location of the handset through an SMS alert along with an email to the provided email address. Micro LMTS is one of the foremost internationally accepted Micro Technologies products. Micro LMTS has added huge number of clients to the existing ones in both Indian and International Market.

MTNL subscribers can subscribe and use this innovative software by paying as minimum as **Rs. 30 per month** by contacting their service provider. MTNL will be providing Micro LMTS to its subscribers across Mumbai, Thane and Navi Mumbai.

MTNL since its inception in 1986 has taken rapid strides to emerge as India's leading operating companies. As a company MTNL grew rapidly by modernizing the network through induction of State-of-the-art technologies and adopting a customer friendly approach. With several services brands under its name it has become one of the Asia's major telecommunication companies with a large number of customer bases across India by fore fronting the technology induction by converting 100% of its telephone exchange network into the state-of-the-art digital mode.

About Micro Technologies

Micro Technologies (India) Ltd is a leading global developer, manufacturer and marketer of IT based security solutions for its clients across the globe. Products range includes the much-needed security devices, life support systems and web-based software. It is one of the most valued security solutions across the globe and has been accorded with Global awards as well as the Maharashtra IT Award for its R& D.
