

Micro Technologies Updates

To restore momentum towards sustainability in the current scenario Micro Technologies takes several important initiatives and achievement in various segments.

Micro Technologies bags orders for its security solutions to Banking Sector

With the wide acceptance of innovative range Micro products in various sectors in India, various large banks are introducing innovative range of Micro Products into their premises. Banking sector; being one of the core target areas wherein security is at priority. Micro Technologies has been successfully deployed its innovative range of micro products in many major banks of India wherein these banks take security from various aspects like access control to Power failure or real time monitoring during the night to intrusion detection. Micro Technologies is expecting to have more such moves in the near future.

Corporate Bodies investment in Micro Subsidiaries

Various Corporate Bodies has taken interest in investing in MSSL (Micro Secure Solution Ltd.) and MRL (Micro Retail Ltd.) subsidiaries of Micro Technologies (India) Ltd and committed for equity based partnership by taking up to 15% equity in both the subsidiaries. The major objective of this deal is to strengthen the brand position of Micro Technologies and its major product line in the domestic as well as the international market. The equity partnership will be beneficial for both the organizations and take Micro Products and its Brand Value into a far more positive attribute.

Micro Technologies ties up with BSNL

Micro Technologies ties up with Bharat Sanchar Nigam Ltd. (BSNL) - India's No. 1 Telecommunications Company to offers Micro LMTS (Lost Mobile Tracking System) to increase the security of mobile handsets of 3.8 Crores BSNL subscriber base across India. BSNL subscribers can subscribe and use this innovative software to secure their mobile handsets. This tie-up would be advantageous to BSNL subscribers and will give a new foot hold to Micro Technologies which continues to expand its reach to a large number of mobile subscribers through its innovative range of products.
