

Micro Technologies (India) Ltd., gets honored with the esteemed 'Deloitte Technology Fast 50 (India) Award' for the fourth year in a row

Micro Technologies, a fastest growing company in the field of security; honored with the renowned 'Deloitte Technology Fast 50 (India)' Award. The Deloitte Technology Fast 50 India program annually recognizes the 50 fastest growing technology companies in India, based on the percentage revenue growth over the last three financial years.

Micro Technologies is a leading global developer and manufacturer of various innovative security solutions with its proprietary products such as Micro VBB (Vehicle Black Box), Micro HSS (Home Security System) and range of similar Security solutions for Mobile, Computer, and Laptop. It also includes Corporate Security solutions for ATM, Cell Tower, and Energy distributions etc which are developed using unique IT technologies. Being an R & D based company Micro Technologies invests a substantial amount of its revenue in research and development.

Micro Technologies gets honored with 'Deloitte Technology Fast 50 (India) Award' for its faster growth and success in the field of security, consecutively for the fourth time. Micro Technologies conquers the criteria for the nomination and gets accorded with the renowned Deloitte Technology Fast 50 (India) Award. Undoubtedly, this newly lined up award will commit Micro Technologies with one more opportunity to expand its horizon in the global market.

"Getting such an honor is not only an achievement but also it underlines that Micro Technologies has proved to be a dynamic player in the field of technology and it is one of the fastest growing companies among the other market players" said, Mr. Mukund Gupta, Chief Executive Officer of Micro Technologies. The Award was accepted at a glittering function in Bangalore by Aditya S, Chief Strategic Officer of Micro Technologies.
