

Micro Technologies and H.A.SH Security Services (Israel) announce the launch of India's unique "International Command & Control Centre"

Mumbai, October 19th, 2010 – Micro Technologies (India) Ltd and Israel based H.A.SH Systems is proud to announce the launch of India's most unique 'International Command & Control Centre'.

International Command & Control Centre will be one of the most advanced and technologically sophisticated centers in the world, assuring complete safety and security with increased efficiency to the movable and non-movable assets of clients. The control center will not only remotely monitor, diagnose and generate reports for all kinds of assets such as Mobile Phones, Vehicles, Homes, Laptops, and Desktop Computers etc. but could also increase the Energy Efficiency of the premises and the Work Efficiency of the Employees with a view to increase the overall Security and Efficiency Levels by 20%.

At the initial stages, with the expertise of H.A.SH Systems in International Command & Control Center, and Micro Technologies in terms of its Technological Expertise, the companies intend to form a 50-50 Joint Venture for the 'International Command and Control Centre' in India, for clients all across Mumbai. In the next phase, the International Command & Control Center would cater to Clients all across India and finally, the entire Globe.

The International Command & Control Center would be the heart of any activity focused on personal security, business security and medical assistance, utilizing different command and control systems to inform the clients about any security breaches, emergency alerts like accidents, medical, etc. and natural catastrophes like tsunami, bomb attacks, etc, also help the “Green Revolution” through energy efficiency and finally resulting in increased Security and Work Efficiency. The Control Center would render its effective services to Law Enforcement Agencies, and International Organizations.

“Micro Technologies’ strengths and its varied experience in the field of Security Worldwide in wide spectrum of verticals and domains and exposure to the high end technologies will now combine with H.A.SH service experience to provide ‘Security for All’. International Command & Control Centre will be a unique contribution to the Security Industry.” says Dan Ronen, Chairman, H.A.SH System Services Ltd who is an International Security expert.

Dr. P. Sekhar, founder and CMD of Micro Technologies believes that *“The joint venture with H.A.SH Systems would provide cutting edge security solutions to both individual and corporate clients.”*

H.A.S.H System Services Ltd. is a premier Security Solutions Company in Israel with a wide range of expertise in security, trainings and technological services, having a clientele in France, Poland, Italy and Russia.
