

MICRO TECHNOLOGIES TO PARTNER WITH PREMIER ISRAELI COMPANY TO JOINTLY PROVIDE GLOBAL SECURITY SOLUTIONS

Micro Technologies enters into a technological association with Hash System Services Ltd., a premier Israeli Security solution provider. Hash System Services will integrate and sell Micro Products like the vehicle, home, mobile, laptop, and personal security products to Israel and Global market. Micro Technologies will provide innovative technologies and send professional experts to Israel for the provision of any technical assistance required by Hash System for their unique concept of SAFE CITY Project

Israel is involved in every sphere of the diversified security industry, adding innovation to existing technologies and developing new ones on the cutting edge. In spite of being one of the largest exporters of technology driven product the company understands that maximum security lies in the integration of multiple technologies. Ms. Hash System Services has identified technologies and products developed by Micro Technologies to serve varied fields to ensure safety to public and private institutions.

“Hash group has professional team, senior consultants, ex security services in all Home Land security sectors. The integration between two companies is aimed to lead an establishment of a new JV that will operate at first in Israel and expanded in Global market. MTIL is developing and growing company that develops products that compliments Hash security services with the knoweldge and experience.” Says Dan Ronen, Chairman, Hash System Services Ltd who is an International Security expert.

“Micro Technologies association with HASH would provide a cutting security solutions to Hash customers and this agreement is the outcome of thorough tests, market research and many years of tough field experience in the High Quality Security Technology. We look forward to work jointly with Hash Security” Says Ganapathy V, CFO, Micro Technologies who signed the agreement on 14th Dec. 09 in Israel.
