

Micro Technologies and Hash Group launches “Safe & Secure City Project” for Global Market

(From Left to right) Mr. Dan Ronen, Chairman of Hash Systems and Services Ltd. Dr. P Sekhar, CMD, Micro Technologies (India) Ltd., Mr Tzvika Ban Shabat, president HASH systems and services Ltd. & Mr. A.R Kale, Director, Micro Technologies (India) Ltd.

Micro Technologies launches “**Safe & Secure City Project**” in collaboration with Israeli Company H. A. Sh. Group System Services Ltd. Micro Technologies and Hash have jointly planned serious inroads in the domestic market of Israel to provide security for the major sectors like Port, Coastal and Container, Identification, Cyber Security, Transport Security and Infrastructure Security. This launch would be one of its kinds wherein for the first time an Indian Security product is being exported to Israel Market.

“Hash group has professional team, senior consultants, ex security services in all Home Land security sectors. The integration between two companies is aimed to lead an establishment of a new JV that will operate at first in Israel and expanded in Global market. MTIL is developing and growing company that develops products that compliments Hash security services with the knowledge and experience and Safe & Security Project will be a unique contribution to the Israel Market.” Says Dan Ronen, Chairman, Hash System Services Ltd who is an International Security expert

“Micro Technologies association with HASH would provide a cutting security solutions to Hash customers and this “Safe & Secure City Project” is the outcome of thorough tests, market research and many years of tough field experience in the High Quality Security Technology. We look forward to work jointly with Hash Security” Says Dr. P Sekhar, CMD, Micro Technologies.

Hash System Services will also integrate and sell other range of Micro Products like the vehicle, home, mobile, laptop, and personal security products to Israel and Global market.

Israel is involved in every sphere of the diversified security industry, adding innovation to existing technologies and developing new ones on the cutting edge. In spite of being one of the largest exporters of technology driven product the company understands that maximum security lies in the integration of multiple technologies. M/s. Hash System Services has identified technologies and products developed by Micro Technologies to serve varied fields to ensure safety to public and private institutions.

Micro Technologies' strengths and its varied experience in the field of Security Worldwide in wide spectrum of verticals and domains and exposure to the high end technologies will now combine with Hash's service experience in the Israel and adjoining market.
