

## **Micro Technologies (India) Ltd launches Micro Power Sinewave Home UPS**

Micro Technologies launches Micro Power Sinewave Home UPS on 29th April 2009 by Mr. Vivek Agarwal, Head of the department of IIT, Power Electronics. In the array of sine wave invertors in the market, **Micro Power** is an exceptional Sinewave Home UPS for an uninterrupted power supply.

Power cuts have come to be a part and parcel of our daily lives. In fact most of us today have to plan our day-to-day activities; both personal and professional taking into account the power cuts. Indeed, products like standby power generators, Inverters, uninterrupted power supply systems and storage batteries are finding an expanding Market

Micro Power Sinewave Home UPS is an exceptionally powerful top of the line technology product based on Digital Signal Processing with in-built Smart Battery management, 5 stage battery Charge Control System and an in built Diagnostic aid. It has seven audio alarms to give an idea about Reset, System Fault, Overload, Short Circuit, Low Battery, Water Reminder or if there is a weak DC connection.

Eyeing the potential of \$140 million, home and corporate inverter market in India and specifically the NCR region's inverter market is estimated at Rs.2500 crore for which the main demand came from resident sector in the last year which will grow to approx. Rs.5000 crore this summer, Micro Technologies launches the two 800 VA and 1000 VA models of Micro Power Sinewave Home UPS.

Vivek Agrawal, Prof. IIT, Power Electronics Says, "With the daily load shedding of 3-5 hours in the some region of the state people's life has become uncomfortable. The Micro Power Sinewave Home UPS will definitely relieving the people from these frequent power cuts in the state and across India".

Micro Power Sinewave Home UPS is 100% safe for all electronic equipments with prolonged battery life.

With the increasing power deficit and demand from telecom operators and an expanding desktop user base indicates strong growth prospects for this industry. Micro Technologies foresee a good potential market for Micro Power Sinewave Home UPS in the Indian Market.

### **About Micro Technologies**

Micro Technologies (India) Ltd is a leading global developer, manufacturer and marketer of IT based security Solutions Company for its clients across the globe. Products range includes the much-needed security devices, life support systems and web-based software. It is one of the most valued security solutions across the globe and has been accorded with several Global and National Awards like for its Revenue, Research & Development. Micro Technologies aims at displaying not just the technological innovation and prowess but also the product diversity in various segments of vehicle, premises, mobile and other assets.
