

Micro Technologies Security Products enters Israel market

Micro Technologies (India) Limited, a leading global developer, manufacturer and marketer of security products enters the most competitive market of Israel with its range of Security Products. As per agreement signed with Israel based **Ms. PetroNET** who have targeted to achieve business **worth minimum 5 million USD** within the next 2 years. This deal is first of its kind where in the Indian security technology product is being exported to Israeli Market. Micro Technologies would offer its well tested range of innovative products like the Sealed Package Application, Micro Vehicle Black Box, Micro Home Security System, Micro Lost Mobile Tracking System and Micro Intelligent Black Box to Ms. Petronet.

Ms. PetroNET Wet Stock Management Limited would offer sale and after-sale support to Micro Technologies for these products. This association will strategically operate in Israeli Market and will soon open more avenues and good business prospects in a newer market.

Israel is involved in every sphere of the diversified security industry, adding innovation to existing technologies and developing new ones on the cutting edge. In spite of being one of the largest exporters of technology driven product the company understands that maximum security lies in the integration of multiple technologies and is also an excellent source of security products for vehicles. After rigorous amount of tests, Ms. Petronet found a huge market potential for the integrated solutions offered by Micro Technologies, which aims to serve varied fields to ensure public safety, protect airports, seaports, government offices, financial institutions, recreational centers, real-time response in vehicle security

"Israel has a very lucrative and rapidly expanding Security Market which is mainly export driven, and offers excellent opportunities for Micro Technologies products. We have been working closely with Micro Technologies and have arrived at these relations after seeing a large opportunity for their Security products in Israel and our other partner countries" says Benny Yaron from PetroNET.

"The increasing demand of latest Micro Technologies' innovative products is a perfect match to this requirement in Israel's security industry. We will wholeheartedly respond to the industry trend toward comprehensive security packages required by our business partner M/S PetroNET" Says Ms. Nisha Menon, CIO, Micro Technologies

Micro Technologies products entering the Israeli market is a competitive stand and is the outcome of high quality of Micro Brand and is the result of innovation, advanced software, and many years of tough field experience.
